Letter from the Chairman

Dear Fellow Shareholders,

On behalf of your Board, I am delighted to present the results of VGI Partners Global Investments Limited ("VG1") for the period from 9 June 2017 (inception) to 30 June 2018. VG1 listed on the ASX on 28 September 2017 (ASX:VG1).

In terms of performance, the Board is pleased to report that the Company's post-tax NTA has grown by 9.2% from $2.00 at listing to $2.18 at 30 June 2018 and the Company's share price has increased by 13.5% from $2.00 at listing to $2.27 at 30 June 2018. The post-tax NTA grew further to $2.20 as at 31 July 2018. The VG1 share price has traded at an average 4% premium to post-tax NTA since listing.

VG1 was established to provide investors with access to a concentrated portfolio, predominantly comprised of Long and Short positions in global listed securities, and the investment expertise of VGI Partners, the Manager.

The Manager has a risk-adjusted return philosophy which is implemented through three key tenets:

- **Capital preservation** – First, by investing in high-quality businesses that are easy to understand and that trade at prices which the Manager believes exhibit a sufficient 'margin of safety' – that is, trading at prices that are significantly below the intrinsic value of the business. And second, by using little or no leverage and keeping prudent cash buffers.
- **Superior long-term compound growth** – Great businesses purchased with a 'margin of safety' held for the long-term are best placed to provide superior compound returns.
- **Concentration** – The Manager aims to be concentrated enough in its best ideas so as not to dilute overall returns but hold enough Long positions in order to provide an appropriate level of diversification. The top five Long positions typically represent 40-50% of the portfolio net asset value.

VGI Partners made three precedent-setting commitments at the time of the Company's listing, in order to strongly align outcomes between the Manager and VG1 investors:

1. The Manager would pay for all upfront listing costs**;**
2. The vast majority of ongoing operating costs would be paid by the Manager; and
3. The owners of the Manager would reinvest all performance fees earned on an after-tax basis into VG1 and escrow those shares for the maximum extent permitted by law.

As a consequence, firstly the Manager is absorbing over $14 million in upfront listing-related expenses that would otherwise have been borne by investors in a typical LIC structure. Secondly, the Manager has paid for over $400,000 of VG1's operating costs for the period from listing to 30 June 2018. And finally, the owners of the Manager reinvested 100% of the performance fees earned, after taxes, into new shares in VG1 in January 2018 (261,857 shares). The expected number of shares to be issued to the owners from the reinvestment of after tax performance fees in August 2018 is 2,361,065 shares. These shares are to be issued at the post-tax NTA price of $2.18 as agreed by the Manager and the Company as stipulated in the Investment Management Agreement.

We believe these outcomes clearly demonstrate the Manager's commitment to alignment with VG1 investors.

In addition, the Directors of VG1 have collectively purchased a further 467,321 VG1 shares on market since listing (during the trading windows) such that the Directors and owners of the Manager collectively own over 1.4% of the Company including the August 2018 Performance Fee reinvestment shares to be issued after the release of this report.

We have been pleased to note that while the package of commitments made by the Manager was novel when the Company's prospectus was issued, many subsequent investment company and trust listings have followed our lead by replicating some or all of our commitments. On the first point alone, upfront listing costs, we are delighted that most other new investment company and trust listings that have taken place subsequent to the IPO of VG1 have seen the manager commit to paying for the upfront listing costs, delivering estimated savings of approximately $100 million to Australian and New Zealand investors since VG1 listed last September.

On the second point, ongoing operating costs, the Manager of VG1 has committed to pay for the vast majority of VG1's ongoing operating costs, except Independent Directors fees and the Directors and Officers Insurance which it cannot absorb for governance reasons. As a result, there is an additional saving to VG1 investors of over $650,000 per annum (excluding GST), as outlined in the table below.

VG1 Ongoing Operating Cost Estimates p.a.	**Total Costs $**	**Paid for by the Manager $**	**Paid for by the Company $**
Independent Directors Fees and D&O Insurance	295,000	NIL	295,000
Administration fees	228,000	228,000	NIL
Registry Fees	85,000	85,000	NIL
ASX Listing Fees	65,000	65,000	NIL
Audit and Legal Fees	90,000	90,000	NIL
CHESS Fees	30,000	30,000	NIL
Printing and Design	65,000	65,000	NIL
Other	100,000	100,000	NIL
Total	**958,000**	**663,000**	**295,000**

Turning to the portfolio, as at 30 June 2018, the VG1 portfolio's net equity exposure was 41% (65% Long investments less 24% Short investments). This means that for every $100,000 you have invested in VG1, you own long $65,000 of equities and have short sold $24,000 of equities. This results in a net equity exposure of $41,000 plus $59,000 in cash.

The high cash holding provides VG1 with significant purchasing power for when the Manager sees opportunities to buy high quality businesses at prices that meet its valuation criteria. This may be when market volatility makes its inevitable reappearance. At this point in the cycle, the Manager is identifying many Short opportunities, particularly in the Australian market. The VG1 portfolio had 17 Long positions and 22 Short positions as at 30 June 2018.

As outlined in the VG1 Prospectus, it is expected that the VG1 portfolio will closely replicate that of the VGI Partners Master Fund when it is fully deployed. The Manager has continued to patiently and steadily deploy the VG1 portfolio such that at 30 June 2018 the portfolio was approximately 80% of targeted individual stock weightings, on average, across the entire portfolio.

More specifically, where the Manager has identified new Long and Short opportunities, the VG1 portfolio weighting will immediately mirror the VGI Partners Master Fund weightings. However, it has been challenging for the Manager to prudently replicate weightings in two key Long positions which have been held by the VGI Partners Master Fund for many years, Amazon and Mastercard. As at 30 June 2018, the weightings were Amazon (4%) and Mastercard (5%), which are below the VGI Partners Master Fund's weightings.

The Manager's investment process and philosophy is firmly based on the cornerstone principles of capital preservation and 'margin of safety'. The Manager invests in high quality businesses and the share prices of those two businesses have continued to track strongly higher since VG1 listed in September 2017. In the Manager's opinion, the share prices of Amazon and Mastercard have traded where there has been only a narrow 'margin of safety' and so the Manager has made only limited further deployment in these positions. The Manager intends to remain patient and will take advantage of buying opportunities as they arise in these and other stocks.

The Manager seeks to deliver superior risk-adjusted returns over the long-term, which the Manager and the Company considers to be an average compound annual return of 10% to 15% (after all fees and expenses) over a period of more than 5 years.

The following table outlines the performance of the VGI Partners Master Fund since inception to 30 June 2018 and demonstrates that the Manager has been successful in achieving its stated risk-adjusted return objective. Importantly, we note this has been achieved with an average cash weighting of 30%.

Annual Compound Returns (% p.a.)	VGI Partners Master Fund Performance	Performance Objective Achieved (10-15% p.a.)
1 year	20.2%	✓

Finally, we take shareholder communications very seriously and encourage you to participate in one of our upcoming investor briefings. There will be a full year results conference call on 20 August 2018 and we will be visiting Sydney, Melbourne, Adelaide, Perth and Brisbane during October and November 2018. These briefings provide another excellent opportunity to hear directly from the Manager. For further information please refer to the VG1 website at https://www.vgipartnersglobal.com/investor-relations/important-dates.

In addition, the inaugural VG1 Annual General Meeting will be held at 10:30am on Monday 19 November 2018 at The Barnet Long Room, Customs House, Sydney.

To ensure that you remain fully informed, we recommend that you elect to receive all investor communications via email. Please contact Victoria Arthur, our Investor Relations Manager, on +612 9237 8921 if you require assistance in this regard or if you ever have any questions about your investment.

We greatly appreciate your ongoing support and look forward to seeing you at the investor briefings and the 2018 Annual General Meeting.

Yours sincerely,

David F. Jones	Non-Independent Chairman	9 June 2017
Robert M. P. Luciano	Non-Independent Director	9 June 2017
Douglas H. Tynan	Non-Independent Director	9 June 2017
Lawrence Myers	Independent Director	4 July 2017
Noel J. J. Whittaker	Independent Director	7 July 2017
Jaye L. Gardner	Independent Director	25 July 2017

Principal Activity

The principal activity of the Company is to provide shareholders with access to a concentrated portfolio, predominantly comprised of long and short positions in global listed securities; and the investment expertise of VGI Partners, the Investment Manager ("Manager"). The Manager employs the same Investment Strategy for the Company as it employs in the management of the VGI Partners Master Fund.

There have been no significant changes in the nature of this activity during the period and no change is anticipated in the future.

Review of Operations

The Company was incorporated on 9 June 2017 and listed on the ASX on 28 September 2017. During the period under review, the Company raised capital of $550,000,002 by issuing 275,000,001 shares at a price of $2.00 per share.

The Company raised additional capital of $528,951 on 29 January 2018 and $5,147,121 on 14 August 2018 under the performance fee reinvestment mechanism governed by the Investment Management Agreement.

From the date of share allotment, being 25 September 2017, to 30 June 2018, VGI Partners Global Investments Limited's portfolio generated an increase in post-tax NTA after all fees of +9.2%. Investment operations over the period ended 30 June 2018 resulted in an operating profit before tax of $47,402,378 and an operating profit after tax of $33,177,988.

The Manager has been patiently and steadily deploying the capital such that as at 30 June 2018, the portfolio was approximately 80% of targeted individual stock weightings, on average, across the entire portfolio. More specifically, where the Manager has identified new long and short opportunities, the portfolio weighting will immediately mirror the VGI Partners Master Fund weighting.

Given the Manager's focus on preservation of investors' capital, the Manager may take several more months to fully deploy the portfolio.

Financial Position

The net assets of the Company as at 30 June 2018 were $583,706,941.

Dividends

No dividend was proposed or paid during the period ended 30 June 2018.

Matters subsequent to the end of the financial year

No matter or circumstance has occurred subsequent to year end that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial years.

Likely developments and expected results of operations

The Company will continue to pursue its investment objectives for the long-term benefit of shareholders.

Environmental regulation

The Company is not affected by any significant environmental regulation in respect of its operations.

To the extent that any environmental regulations may have an incidental impact on the Company's operations, the Directors of the Company are not aware of any breach by the Company of those regulations.

Remuneration Report (Audited)

This Report details the nature and amount of remuneration for each Director of VGI Partners Global Investments Limited in accordance with the *Corporations Act 2001*. The Company Secretary is remunerated by VGI Partners Pty Limited, the Manager.

Details of remuneration

David Jones, Robert Luciano and Douglas Tynan, are Directors of the Manager, VGI Partners Pty Limited, and do not receive directors' fees from the Company.

The Company does not have a remuneration committee. The Board from time to time determines the remuneration of Independent Directors within the maximum amount approved by shareholders at the Annual General Meeting.

Fees and payments to Independent Directors reflect the demands that are made on them and their responsibilities. The Board determines the remuneration levels and ensures they are competitively set to attract and retain appropriately qualified and experienced directors. The performance of directors is reviewed annually.

The Independent Directors are entitled to receive Directors' fees collectively of up to $225,000 per annum. Independent Directors do not receive bonuses nor are they issued options on securities as part of their remuneration. Directors' fees cover all main Board activities and membership of committees. Directors' remuneration is not linked to the Company's performance.

The following table shows details of the remuneration received or receivable by the Independent Directors of the Company for the current financial period.

Remuneration Report (continued)

Director	Position	Short term employee benefits Salary and fees $	Post-employment benefits Superannuation $	Total $
Jaye L. Gardner	Independent Director	50,228	4,772	55,000
Lawrence Myers	Independent Director	50,228	4,772	55,000
Noel J. J. Whittaker	Independent Director	50,228	4,772	55,000
		150,684	14,316	165,000

Director related entity remuneration

All transactions with related entities are made on normal commercial terms and conditions.

The Non-Independent Directors, David F. Jones, Robert M. P. Luciano and Douglas H. Tynan, are Directors of the Manager. The fees payable to the Manager are listed below:

- **Management fee:** The Manager is entitled to be paid a management fee equal to 1.5% p.a. (plus GST) of the value of the Company's portfolio calculated on the last business day of each month paid monthly in arrears.

  Under the Investment Management Agreement, the Company will not pay any management fees that would otherwise have been payable to the Manager until such time as all of the Company's offer costs have been recouped. These offer costs had initially been recognised in equity as Capitalised Costs of the Offer. Given these costs will be recouped, the Board has assessed that the offer costs should be taken to the Statement of Profit or Loss and Other Comprehensive Income as Offer Costs Expense, which offsets Receivable Income to result in the more conservative outcome of nil Receivable Income on the Statement of Profit or Loss and Other Comprehensive Income.

- **Performance fee:** The Manager is entitled to be paid a performance fee semi-annually in arrears, equal to 15% (plus GST) of the Portfolio's outperformance (if any) over each prior semi-annual Performance Calculation Period, subject to a high water mark mechanism.

  For the period ended 30 June 2018, the Manager earned performance fees of $8,422,096, exclusive of GST (December 2017: $962,500 exclusive of GST, June 2018: $7,459,596 exclusive of GST)

  The Manager and the Company have agreed that the owners of the Manager will reinvest all of their after-tax proceeds from any performance fees via a share purchase mechanism, the terms of which are stipulated in the Investment Management Agreement.

No Director has received or become entitled to receive a benefit (other than those detailed above) by reason of a contract made by the Company or a related company with the Director or with a firm of which they are a member or with a company in which they have substantial financial interest.

Remuneration of executives

The Company has no employees other than Independent Directors and therefore does not have a remuneration policy for employees. The Directors are the only people considered to be key management personnel of the Company.

End of Remuneration Report

Insurance and indemnification of officers and auditors

The Company has paid premiums to insure each of the Directors against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Director of the Company, other than conduct involving a wilful breach of duty in relation to the Company or the improper use by the Directors of their position.

The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

No indemnities have been given or insurance premiums paid during or since the end of the financial period, for any person who is or has been an Auditor of the Company.

Proceedings on behalf of the Company

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001.*

Non-audit services

The Board of Directors is satisfied that the provision of other services during the period is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The Directors are satisfied that the services disclosed in Note 16 did not compromise the Auditor's independence for the following reasons:

- all non-audit services are reviewed and approved by the Board prior to commencement to ensure they do not adversely affect the integrity and objectivity of the Auditor; and
- the nature of the services provided do not compromise the general principles relating to the Auditor's independence in accordance with the APES 110 Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board.

Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration as required under section 307C of the *Corporations Act 2001* is set out on page 14.

Rounding of amounts to nearest dollar

In accordance with ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2017/191, the amounts in the Directors' Report and in the Financial Report have been rounded to the nearest dollar unless otherwise specified.

This report is made in accordance with a resolution of the Directors.

Notes to the Financial Statements

For the period from 9 June 2017 to 30 June 2018

1. General information

VGI Partners Global Investments Limited ("Company") is a listed public company domiciled in Australia. The financial statements were authorised for issue on 14 August 2018 by the Directors of the Company.

2. Significant accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below.

a) Basis of Preparation

These general purpose financial statements have been prepared in accordance with the *Corporations Act 2001,* Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and International Financial Reporting Standards as issued by the International Accounting Standards Board. The Company is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of financial assets and financial liabilities.

In accordance with ASIC Corporations (rounding in Directors' Reports) Instrument 2017/191, the amounts in the Directors' Report and in the financial statements have been rounded to the nearest dollar unless otherwise specified.

Where applicable and required by the Australian Accounting Standards, comparative figures will be adjusted to conform to changes in presentation for the current financial period.

b) Investments

i) Classification

The financial assets and financial liabilities are categorised as 'financial instruments designated at fair value through profit or loss'. These include financial assets and liabilities that are not held for trading purposes and which may be sold, including listed equity securities.

2. Significant accounting policies (continued)

ii) Recognition/Derecognition

'Financial assets and liabilities at fair value through profit or loss' are recognised initially on the trade date at which the Company becomes a party to the contractual provisions of the instrument. Any other financial assets and liabilities are recognised on the date they originated.

The Company derecognises a financial asset when the contractual rights to the cash flows from the financials assets expire or it transfers the financial asset and the transfer qualifies for derecognition.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expired.

iii) Measurement

'Financial assets and liabilities held at fair value through profit or loss' are measured initially at fair value, with subsequent changes in their fair value recognised in the Statement of Profit or Loss and Other Comprehensive Income. Initial transaction costs are recognised in the Statement of Profit or Loss and Other Comprehensive Income.

c) Fair Value Measurement

When a financial asset is measured at fair value, the value is based on the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date.

Assets measured at fair value are classified into 3 levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

Shares that are listed or traded on an exchange are fair valued using last sale price, as at the close of business on the day the shares are being valued. If a quoted market price is not available on a recognised stock exchange, the fair value of the instruments are estimated using valuation techniques, which include the use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, or any other valuation techniques that provide a reliable estimate of prices obtained in actual market transactions.

d) Income and Expenditure

Net gains/(losses) on 'financial assets and financial liabilities held at fair value through profit or loss' arising on a change in fair value are calculated as the difference between the fair value at year end and the fair value at the preceding valuation point.

Interest income and expenses, including interest income and expenses from non-derivative financial assets, are recognised in the Statement of Profit or Loss and Other Comprehensive Income as they accrue.

Dividend income relating to exchange-traded equity instruments is recognised in the Statement of Profit or Loss and Other Comprehensive Income on the ex-dividend date with any related foreign withholding tax deducted as an expense.

All expenses are recognised in the Statement of Profit or Loss and Other Comprehensive Income on an accruals basis.

Under the Investment Management Agreement, the Company will not pay any management fees that would otherwise have been payable to the Manager until such time as all of the Company's offer costs have been recouped. These offer costs had initially been recognised in equity as Capitalised Costs of the Offer. Given these costs will be recouped, the Board has assessed that the offer costs should be taken to the Statement of Profit or Loss and Other Comprehensive Income as Offer Costs Expense, which offsets Receivable Income to result in the more conservative outcome of nil Receivable Income on the Statement of Profit or Loss and Other Comprehensive income.

2. Significant accounting policies (continued)

e) Income Tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income at the applicable tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and any adjustment recognised for prior periods, where applicable.

Current tax liabilities/(assets) are measured at the amounts expected to be paid to/(recovered from) the Australian Taxation Office (ATO).

The Company may incur withholding tax imposed by certain countries on investment income. Such income will be recorded net of withholding tax in the Statement of Profit or Loss and Other Comprehensive Income.

Deferred tax assets are recognised to the extent that they are recoverable; deductible temporary differences and unused tax losses are only recognised if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are recognised at the tax rates expected to apply when the assets are recovered, or liabilities settled.

Deferred tax is credited to the Statement of Profit or Loss and Other Comprehensive Income.

f) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, unless GST incurred is not recoverable from the ATO. In that case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included in other receivables or other payables in the Statement of Financial Position.

Cash flows are presented in the Statement of Cash Flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

g) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions, and other short-term, and highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

h) Trade and other receivables

Trade and other receivables relate to outstanding settlements, interest and dividends receivable as well as the share offer costs remaining to be recouped under the Investment Management Agreement.

i) Trade and other payables

These amounts represent liabilities for outstanding settlements as well as services provided to the Company prior to the end of the financial period and which are unpaid.

j) Share capital

Ordinary shares are classified as equity.

2. Significant accounting policies (continued)

k) Earnings per share

Earnings per share is calculated by dividing:

- the profit attributable to owners of the Company;
- by the weighted average number of ordinary shares outstanding during the financial period, adjusted for bonus elements in ordinary shares issued during the period.

l) Critical accounting estimates and judgments

The Directors evaluate the estimates and judgments incorporated into the financial statements based on historical knowledge and the best available current information.

There are no estimates or judgments that have a material impact on the Company's financial results for the period.

m) New accounting standards and operations

AASB 9: *Financial Instruments* and associated Amending Standards (applicable to annual reporting periods beginning on or after 1 January 2018) will be adopted from 1 July 2018. The Directors do not expect the adoption of AASB 9 to have a significant impact on the recognition and measurement of the Company's financial instruments. The Standard introduces a new impairment model, however, on the basis that the Company does not apply hedge accounting and the Company's investments are held at fair value through profit or loss, the change in impairment rules will not impact the Company.

No other new accounting standards and interpretations that are available for early adoption but not yet adopted at 30 June 2018, will result in any material change in relation to the financial statements of the Company.

n) Functional and presentation currency

Items included in the financial statements are presented and measured in Australian dollars, the currency of the primary economic environment in which the Company operates ("the functional currency").

Foreign currency transactions are translated into the functional currency using the exchange rates applicable at the transaction date.

At reporting date, monetary items are translated at the exchange rate applicable at reporting date, and non-monetary items carried at fair value are translated at the rates applicable at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported in the Statement of Profit or Loss and Other Comprehensive Income on a net basis within the disclosure 'net gains/(losses) on financial instruments held at fair value through profit or loss'.

3. Financial risk management

The Company's financial instruments consist mainly of listed investments, deposits with banks, trade and other receivables and trade payables, and as a result financial risks include market risk (including price risk, foreign currency risk and interest rate risk), credit risk and liquidity risk. The Board of the Company, with the Manager, has implemented a risk management framework to manage and mitigate these risks.

a) Market risk

i) Price risk

Price risk arises from investments held by the Company and classified in the Statement of Financial Position as 'financial assets and financial liabilities at fair value through profit or loss'.

The Manager seeks to manage market risk by careful selection of securities in accordance with its investment process, including formalised research, due diligence, capital allocation decision making, ongoing monitoring, financial modelling as well as managing net equity exposure levels.

The Investment Strategy provides the Company with a broad global mandate, with the majority of the Company's portfolio in international and Australian listed securities. A breakdown of the Company's overall market exposures at the financial reporting date are below:

	2018 **$**
Financial assets at fair value through profit or loss	397,912,493
Financial liabilities at fair value through profit or loss	(149,808,076)
Net overall exposure	**248,104,417**

At the reporting date, had equity prices moved by +/- 5% with other variables held constant, the movement in profit before income tax would be approximately +/- $12,405,221.

ii) Foreign currency risk

The Company holds assets and performs transactions denominated in currencies other than its functional currency, the Australian dollar. As a result, it is exposed to the effects of exchange rate fluctuations, creating foreign currency risk. The Manager manages the exchange rate exposures within approved policy parameters, monitors exchange rates closely as part of its portfolio management and may hedge some or all of its exposure to foreign currency exchange risk.

3. Financial risk management (continued)

ii) Foreign currency risk (continued)

The table below summarises the Company's exposure to foreign currency risk.

	Liabilities 2018 $	Assets 2018 $
United States Dollar (USD)	(75,243,508)	685,232,948
Euro (EUR)	(11,961,486)	12,139,521
Great British Pound (GBP)	(26,981,606)	27,203,734
Canadian Dollar (CAD)	(214,003)	213,242
Japanese Yen (JPY)	(16,937,951)	16,876,915
Danish Krone (DKK)	(7,145,242)	7,116,460
Hong Kong Dollar (HKD)	(9,809,076)	10,385,507

The table below performs a sensitivity analysis of the effect on the 'net assets attributable to shareholders (and profit before income tax)' due to a reasonable possible movement of the currency rate against the Australian dollar with all other variables held constant.

Currency	AUD equivalent in exposure by currency 2018 $	Change in currency rate +/-%	Profit attributable to shareholders 2018 $
USD Impact	609,989,440	5%/-5%	(30,499,472) / 30,499,472
EUR Impact	178,035	5%/-5%	(8,902) / 8,902
GBP Impact	222,128	5%/-5%	(11,106) / 11,106
CAD Impact	(761)	5%/-5%	38 / (38)
JPY Impact	(61,036)	5%/-5%	3,052 / (3,052)
DKK Impact	(28,782)	5%/-5%	1,439 / (1,439)
HKD Impact	576,431	5%/-5%	(28,822) / 28,822

iii) Cash flow and fair value interest rate risk

The majority of the Company's financial assets and liabilities are non-interest-bearing. Any interest-bearing financial assets and financial liabilities either mature or reprice in the short term. As a result, the Company is subject to limited exposure to fluctuations in market interest rates which would create interest rate risk. We note that the Company does also hold substantial cash positions which do earn interest and therefore there is some exposure to deposit interest rates.

3. Financial risk management (continued)

b) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the counterparty by failing to discharge an obligation.

The Manager has adopted a policy of only dealing with what it assesses to be creditworthy counterparties, conducting due diligence of all new counterparties, monitoring the creditworthiness and ratings of counterparties on an ongoing basis and obtaining sufficient collateral or other security (where appropriate), as a means of mitigating the financial risk of financial loss from default.

The maximum exposure to credit risk by class of recognised financial assets at the end of the reporting period is equivalent to the carrying amount and classification of those financial assets as presented in the Statement of Financial Position, including the carrying amount of cash and cash equivalents, financial assets (securities owned long) that may have been collateralised against borrowed stock and are held under a custody arrangement, and trade and other receivables.

Under the arrangements which the Company has entered into to facilitate stock borrowing for covered short selling, borrowed stock is collateralised by the long stock portfolio. If the stock borrowing counterparty became insolvent, it is possible that the Company may not recover all of the collateral that the Company gave to the counterparty.

The trade and other receivables include unsettled trades at year end which are typically settled three days after trade date, dividends and interest receivables.

A receivable asset in respect of the recoupment of offer costs incurred in relation to the initial public offering for the Company has been recognised under the Investment Management Agreement between the Company and the Manager. The Manager has agreed to forgo management fees until such time as the offer costs have been recouped in full.

None of the assets exposed to credit risk are overdue or considered to be impaired.

c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

Under the Investment Management Agreement, the Manager has agreed to pay all of the Company’s operating expense outgoings except for Directors’ fees and Directors’ insurance. The Manager maintains the Company’s unencumbered cash balances at sufficient levels to ensure the Company can meet these expense outgoings as and when they fall due. Further, the Manager closely manages and monitors the allocation of the Company’s investment assets between cash, the purchase of securities and the settlement of short positions in accordance with its investment process, as well as tax thereon to be paid to the ATO.

The assets of the Company are predominantly in the form of readily tradeable securities which can be sold on-market if necessary.

The tables below summarise the maturity profile of the Company's financial liabilities. The amounts disclosed in the table are the contractual undiscounted cash flows.

At 30 June 2018	Less than 1 month $	More than 1 month $	Total $
Financial liabilities			
Financial liabilities at fair value through profit or loss	149,808,076	–	149,808,076
Trade and other payables	8,996,202	–	8,996,202
Total financial liabilities	**158,804,278**	–	**158,804,278**

4. Fair value measurements

The Company measures and recognises its 'financial assets and liabilities at fair value through profit or loss' on a recurring basis.

AASB 13: Fair Value Measurement requires the disclosure of fair value information using a fair value hierarchy reflecting the significance of the inputs in making the measurements. The fair value hierarchy consists of the following levels:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table presents the Company's 'financial assets and liabilities measured and recognised at fair value' at the reporting date. The carrying amounts of all financial instruments are reasonable approximations of the respective instrument's fair value.

	Level 1 $	Level 2 $	Level 3 $	Total $
Financial assets (securities owned long)	397,912,493	–	–	**397,912,493**
Financial liabilities (securities sold short)	149,808,076	–	–	**149,808,076**

There were no transfers between levels for recurring fair value measurements during the period.

The Manager and the Company have agreed that owners of the Manager will reinvest all of their after-tax proceeds from any performance fees via a share purchase mechanism, the terms of which are stipulated in the Investment Management Agreement. Shares were issued to the owners of the Manager under the mechanism in respect of the performance fees incurred by the Company during the reporting period.

Capital risk management

The Company's policy is to maintain a strong capital base so as to maintain investor and market confidence. The overall strategy remains unchanged. To achieve this, the Board of Directors monitor the monthly NTA results, investment performance and share price movements.

The Board is focused on maximising returns to shareholders with capital management a key objective of the Company. The Company is not subject to any externally imposed capital requirements.

The expected number of shares to be issued to the owners from the reinvestment of after tax performance fees in August 2018 is 2,361,065 shares. These shares are to be issued subsequent to this report at the post-tax NTA price of $2.18 as agreed by the Manager and the Company under the Investment Management Agreement.

15. Related party transactions

All transactions with related entities are made on normal commercial terms and conditions.

Management fee

The Manager is entitled to be paid a management fee equal to 1.5% per annum (plus GST) of the value of the Company's portfolio calculated on the last business day of each calendar month paid monthly in arrears. Under the Investment Management Agreement, the Company will not pay any management fees that would otherwise have been payable to the Manager until such time as all the Company's offer costs have been recouped. As at 30 June 2018, $6,584,766 has been recouped, the remaining balance to be recouped is $7,718,172 (refer Note 8). As at 30 June 2018, the balance payable to the Manager was nil because there existed offer costs to be recouped.

Performance fee and reinvestment mechanism

The Manager is entitled to be paid a performance fee semi-annually in arrears, equal to 15% (plus GST) of the Portfolio's outperformance (if any) over each prior semi-annual performance calculation period, subject to a high water mechanism.

The first performance calculation period was the period from the Commencement Date to 31 December 2017, and thereafter it is each full six month period ending on 30 June or 31 December.

The high watermark is the net asset value of the portfolio before all taxes calculated on the last date of the performance calculation period to which the Manager was last entitled to be paid a performance fee.

The Manager and the Company have agreed that the owners of the Manager will reinvest all of their after-tax proceeds from any performance fees via a share purchase mechanism, the terms of which are stipulated in the Investment Management Agreement.

For the period ended 30 June 2018, the Manager earned performance fees of $8,422,096 exclusive of GST (December 2017: $962,500 exclusive of GST, June 2018: $7,459,596 exclusive of GST).

For the period 9 June 2017 to 31 December 2017, the number of shares reinvested amounted to 528,951.
For the period 1 January 2018 to 30 June 2018, the expected number of shares to be reinvested is 2,361,065.

As at 30 June 2018, the balance of performance fee entitlement to the Manager was $8,205,556 (including GST).

16. Remuneration of Auditor

During the period the following fees were paid or payable for services provided by the Auditor of the Company, its related practices and non-related audit firms:

	2018 **$**
Audit and review of financial statements	54,495
Taxation services	10,505
Investigating accountant services for Prospectus	48,192
Total remuneration for audit and other assurance services	**113,192**

The Company's audit fees are being paid by the Manager under the Investment Management Agreement.

17. Contingencies and commitments

The Company had no material contingent liabilities or commitments.

18. Events occurring after the reporting year

No matter or circumstance has occurred subsequent to year end that has significantly affected, or may significantly affect, the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial years.

19. Reconciliation of profit after income tax to net cash inflow from operating activities

Independent Auditor's Report
To the Members of VGI Partners Global Investments Limited
ABN 91 619 660 721

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of VGI Partners Global Investments Limited ("the Company"), which comprises the statement of financial position as at 30 June 2018, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows for the period 9 June 2017 to 30 June 2018, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of VGI Partners Global Investments Limited is in accordance with the *Corporations Act 2001*, including:

i. giving a true and fair view of the Company's financial position as at 30 June 2018 and of its financial performance for the period then ended; and
ii. complying with Australian Accounting Standards and the *Corporations Regulations 2001.*

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (*"the Code") that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of the Company, would be on the same terms if given to the Directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current year. We have communicated the key audit matters to the Audit and Risk Committee, but they are not a comprehensive reflection of all matters that were identified by our audit and that were discussed with the Audit and Risk Committee. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report
To the Members of VGI Partners Global Investments Limited
ABN 91 619 660 721

Key audit matter	***How our audit addressed the matter***
Existence, Completeness and Valuation of Financial Assets and Financial Liabilities ***Refer to Note 9: Financial assets and liabilities at fair value through profit or loss***	
We focused our audit effort on the existence, completeness and valuation of the Company's financial assets and financial liabilities as they are its largest assets and liabilities and represent the most significant driver of the Company's Net Tangible Assets and profits. Investments mostly consist of listed global securities. Investments are valued by multiplying the quantity held by the respective market price in the currency of listing. All foreign investments are valued in presentation currency (Australian dollars) utilising the period end rates.	Our procedures included, amongst others: ▪ Obtaining an understanding of the investment management process and controls; ▪ Reviewing and evaluating the independent audit report on internal controls (ISAE 3402 Assurance Reports on Controls at a Service Organisation) for the Custodians; ▪ Reviewing and evaluating the independent audit report on internal controls (ISAE 3402 Assurance Reports on Controls at a Service Organisation) for the Administrator; ▪ Making enquiries and obtaining bridging letters as to whether there have been any changes to these controls or their effectiveness and performing additional procedures on a sample basis; ▪ Obtaining a confirmation of the investment holdings directly from the Custodians; ▪ Assessing the Company's valuation of individual investment holdings to independent sources; ▪ Evaluating the accounting treatment of revaluations of financial assets and financial liabilities for current/deferred tax and unrealised gains or losses; and ▪ Assessing the adequacy of disclosures in the financial statements.

Key audit matter	*How our audit addressed the matter*
Accuracy of Receivable Amortisation and Performance Fees ***Refer to Note 10: Trade and other payables, Note 15 Related party transactions***	
We focused our audit effort on the accuracy of calculating the receivable amortisation and performance fees as they are significant expenses of the Company and their calculation may require adjustments for major events such as payment of company dividends and taxes, capital raisings and capital reductions in accordance with the Investment Management Agreement between the Company and the Investment Manager. In addition, to their quantum, as these transactions are made with related parties, there are additional inherent risks associated with these transactions, including the potential for these transactions to be made on terms and conditions more favourable than if they had been with an independent third-party.	Our procedures included, amongst others: ▪ Making enquiries with the Investment Manager and Those Charged With Governance with respect to any significant events during the period and associated adjustments made as a result, in addition to reviewing ASX announcements; ▪ Testing key inputs used in the calculation of performance fees and the amount of the offer costs recouped from the Manager (Receivable amortisation), and performed recalculation of both in accordance with our understanding of the Investment Management Agreement; and ▪ Assessing the adequacy of disclosures made in the financial statements.

Other Information

The Directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report for the period ended 30 June 2018, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors are responsible for assessing the ability of the Company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Independent Auditor's Report
To the Members of VGI Partners Global Investments Limited
ABN 91 619 660 721

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entity or business activities within the Company to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Company audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
